Detection Parameters

Contamination Rate ?

0.05
0.01 0.20

☒ Use Enhanced Features ?

Choose Detection Algorithms:

Choose an option ▼

☐ Dark Mode

main() **str** **'** 💡 **Tip:**
Lower contamination
rates detect fewer
anomalies'

```
str(object='') -> str  
str(bytes_or_buffer[, e
```

Create a new string object. If
errors is specified, the string
that will be decoded using
errors. Otherwise, returns the
original string or repr(object).
encoding defaults to 'utf-8'.
errors defaults to 'strict'.

capit: Return a
capitalized
version of
the string.

casef: Return a
version of
the string
suitable for
caseless
comparisons.

center: Return a
centered
string of
length width.

count S.count(sub[,
start[,
end]]) -> int
